Inkster Summer Olympics 2016

## Our words of Thanks

We would like to thank all of our parents, volunteers, community members, and The Winnipeg Foundation for the fantastic summer we had this year.

Without all of your help and support, this summer would not have been the same. We deeply appreciate everything you did for us and we hope you enjoyed your time shared with us.

Montana's gave the kids a tour of what a restaurant kitchen looks like.

Children got to see live performances at The Winnipeg Fringe Festival.

The children were surprised by a trip to Tinker-town, a field trip that they all enjoyed.

### GROWING GARDEN

The kids got the chance to grow lettuce in a neighbours garden!

### NAMASTE

Yoga lessons ran through the month of July for the kids.

### FUTURE PERFORMERS

Dancers, singers, and many more acts performed at our opening and closing ceremonies.

## Inkster Daycare was chosen to host the 2016 Summer Olympics

This summer our kids got to participate in a variety of different Olympic events.

From running to shot-put and hamster ball races to tug of war, the kids at Inkster Daycare got to do it all. This summer was the Summer Olympics where kids had the chance to compete in a wide variety of ancient and modern Summer Olympic Events.

The children competed in events like soccer, bowling, and javelin throw throughout the summer months. They even got to participate in ancient Olympic events like discus and triple jump and had the opportunity to learn about different Aboriginal games.

The children had a blast competing for their countries and were awarded with cookie medals for participating.

## Daycare Becomes an Olympic Village!

### Cooking School

Not only did the kids participate in various Olympic Events, they also became amateur chefs.

Cooking foods from pizza to smoothies and chili fries they cooked it all. Not one kid ate those foods and had something bad to say about it, those dishes were loved by all.

Every single dish was cooked by the kid's hands and was served at snack for all those who wanted to try it.

### TORCH RUN

The torch run is a must have event if you want to host the Olympics. The kids got to run around the neighbourhood taking turns holding the Olympic Torch, which ended up lighting the "torch" located in the gymnasium.

Friends cheered each other on as the torch ran around the school, even getting cheers and applause from some of the community
